SUFFRAGE CARRIES IN TENNESSEE SENATE not quite so was

House Will Now Consider It Monday When It Seems Sure To Go Through

(By Associated Press)

ified the woman suffrage amend- \$12. ment. The vote was 25 to 4.

The vote came after two hours' debate. Adoption of the resolution was moved by Senator Haston, floor leader of the suffragists. The opposition made a point of order that the legislature had no authority to act under the state constitution, but it was overruled by the Speaker. An apried, 27 to 5.

Four members answered "presthem (one in favor of suffrage finishing close to the leaders. and the other against it) explain-

the House, which is to vote on include Wednesday's games. ratification Monday.

Seventeen votes were neces sary for ratification and when the required number had been recorded a tumultous demonstration occurred. The Speaker had difficulty in restoring order so that the rol call might be completed.

Both the Senate and House ad journed until Monday afternoon Speaker Walker of the House an nounced that the committee o the lower house to which the res olution had been referred, would meet Monday night to consider Hollocher, Chicago

This Governor's A Game Sport

Raleigh, N. C., Aug. 14-In a speech, largely an argument Butler, Milwaukee against woman suffrage, Gover, Hargrave, St. Paul nor Bickett urged the North Carolina legislation in joint session here Friday to ratify the Susan B. Anthony amendment to the federal constitution.

Bickett announced at the outset he personally is opposed to best quart peach preserves, Mrs. M. enase, but Minky decided to make suffrage and is "in deepest sym- prepared to make drastic resistance ing estimated at 5,063,000 bushels was a victory for the Democratic A. Indications are that there will be a Cox knows better. "Organized crop of tobacco grown in Madison county next year. This seemer the world," as he said in his ed to be the opinion of a majority of the growers.

Mr. Amster is an advocate of re us, and the nation that halts the 1921 crop. He stated during his address to the meeting that Harding's remedy is to run he did not believe in the cutting ray, in the belief that if the out of the crop next yer, but benited States runs fast enough lieved in a knockout ,as he called id far enough, it can somehow it, meaning that he would advo-

for the consumer at a rea-

ble price, if it could not be

as usual at a fair price, plus quality of the weed. He believes, according to his statement, The counsel of one is a counsel of that Madison county growers could very well do away with the crop next year. He asked all to fix a reasonable or minimum price for their product, and this would be presented, and if refusd the product would be held and Marion, O., Aug. 14-It was defi- sold direct to the consumer at a fixed price. He stated this, in his opinion, was the most practical at the Minnesotn State Fair Wednes- and profitable movement and his day, Sept. 8. It is said the speech address was received with favor upon the part of many. At a late hour the delegates to the Lexington meeting had not been seected. However, this will be done and they will be instructed according to the opinion of the greatest number of producers of Madison county, which is being

letermined at the meeting. In speaking with the producers tobacco in Madison county maare in favor of reducing the rop for next year, but few c those interviewed took kindly to the theory that it would be beneficial to cut out the entire

for the 1921 season. Many claim they have purchased land at high prices, which will endanger their position unless they are allowed to raise tobacco, claiming they cannot realize sufficient profit on other crops to pay for the land. Others claim they have the land which is better adapted to tobac. co raising than anything else and

would prefer raising the weed. The matter of cuttin gout the

crop has stirred many of the cal producers as never before, since they assert they believe now they will realize a good price for this year's crop, and they could not make nearly so much mone on any other product. The move ments being reported at various meetings in other counties have een watched with interest, and while the question of another big crop is unsettled there are varied opinions. Some declare the cutting out of next year's crop would not change the market price whatever, and others adhere to the opinion that if all deided to raise but half their usual creage they much get as much noney for it. Producers from all parts of Madison county were asked regarding the matter of eliminating next year's crop, and the majority claimed it was not feasible. Some stated that it would no be any movement worth considering, unless everyone adhered to the rule, if such a rule ere made, and not a bit of toacco raised. Other declare ther uld be just as much money rezed with half a crop. It is very ident that there will be more or less discussion regarding the

movement here and that the question is not satisfactory to all is an assured fact. DYNAMITE KILLS SIX

TRUCK CAN REALLY **CUT COST OF BREAD**

A mighty factor in lowering the cost of flour is in propect with a fuller development of the shipby-truck movement among mill operators and wheat growers, its advocates declares.

They point out that already by use of the motor truck many millers in the northwest are hauling directly to the mill from the threshing outfit in the field, and thereby purchasing at from two to five cents, below "mill door" price. They cut their own hauling in many instances by carrying flour and feed to the farmers in the trucks going after the wheat. At the same time they build up their sales to the farmer.

Time and labor saved in handling wheat is an economic influence that affects everyone of us, the Firestone Ship-by-Truck Bu-reau, of Akron, Ohio, points out in a recent bulletin. "It reduces the cost of one of the most importnat food staples. Development of the ship-by-truck idea among millers and farmers should aid housewife and baker in produc ing a larger loaf of bread for the same cost or in reducing the cost of the present loaf. Farmer, miller, baker and consumer share in this saving.

"Near Sacramento, Cal., seven 3-ton trucks replaced 45 teams in moving the wheat from a 23,000acre farm. Here the problem was largely a matter of labor. The drivers are paid higher wages individually than teamsters. Seven men, however, did the work of 45. The crop was moved promptly to the milis, something which therwise would have been im possible. Other sections report the same general benefit from the use of the truck.

"In Norwalk, Ohio, a small flour mill enjoys a lively trade with grocers within a 25 to 30mile radius by using motor trucks in delivery. A thriving business was re-established after the mill had been out of poeration for several years. This mill has proved especially successful in stimulating wheat production in the com-The department of agronomy, col-ge of agriculture, has found that ing to reduce the cost of production and distribution by truckpor-

LIME VER YESSENTIAL

TO SOIL, SMALL QUANTITIES

Lime is so essential on the soil in a large part of the state and the length of the wagon haul is so great in so many places that it becomes highly important to know whether small applications of limestone will be sufficient to obtain a good growth of clover. Experiments which the department of agronomy has been conducting for three years indicate that from 500 to 1,000 pounds of ground limestone to the acre will very greatly increase the growth of clover on soils needing lime.

Smallpox was discovered on a train near Albuquerque, N. M., and all the passengers had to be vaccinated before being allowed to leave.

THE MOST BEAUTIFUL CAR IN AMERICA

"HE first appeal of our five-passenger "Glenbrook" I model is, quite properly, its exquisite beauty and distinctiveness. To merely look at the car is a pleasing experience.

The second appeal develops upon acquaintance with one of the most remarkable power plants in the entire field of six cylinder engineering. Thus admiration is supplemented by profound respect and both appeals merge into Pride of Ownership. . .

This new Paige motor is an unusual achievement. It is the result of more than three years of patient research and experiment. It is actually and literally a product of our war time experience.

Furthermore this power plant is an altogether distinctive product-conceived by our own engineers and built in our own plants by our own workmen. It represents in fullest measure all that the Paige nameplate implies.

LOWER WALNUT STREET FOLK BUSY

Citizens of lower Walnut street Douglas Unenault succeeded in as- are preparing to petition, in a usual pride in improvements, and they are being made on an extenive scale. This includes new cenent sidewalks, which have appeared in front of almost a dozen nomes, and others are contemplating similar improvements. There has been extensive paintng done during the present year and there will be considerable more before the close of the season. With this finished, residents state they want the tarvia, which has been so graciously promised by Chairman Charles Terrill, of he stree committee o fthe citcouncil. They will present to the councilmen a petition asking tha ufficient be furnished for the covering of the street throughout and this, they assert, will add ma terially to its appearance. The ouilding on this street has been very liber during the past six nonths, and it is claimed the reult is that the value has been nhanced considerably.

RELIEF FOR MINERS **CLAIMED NECESSARY**

Cleveland, O., Aug. 14-John Lewpresident of the miners union, beore the central competitive district scale committee today asserted some relief for the stabilization of miners wages was necessary and indicated that the miners' demands would be formulated and presented to the committee later in the day. From a unon official it was learned the factionstruggle was splitting the miners and complicating deliberations. It understood President Farrington, the Illinois miners, is here with a rogram of maximum demands, backd by the recent Illinois strike.

MANDAMUS WRIT **HEARING SATURDAY**

Circuit Judge W. R. Shackelford on Saturday heard mandatory injunction proceedings on a writ of mandamus sking that election officers in certain recincts in Breathitt county properand correctly certify the vote of Breathitt county in their respective

In certain precincts, it is alleged, the vote was incorrectly certified or not certified at all. The action of Judge Shackelford Saturday will determine as to whom the certificate of election will be issued in the race or the republican nomiantion for cir-
